Author Index for Volume 13

A
Ashmore, D. L., 89

B
Baker, D. L., 253
Beason, R., 111
Blatz, S., 122
Brubakken, K. M., 23

C
Camp-Sorrell, D., 361
Coker, M. H., 13, 89
Crocker, K. S., 13, 89

D
Delisio, N., 216
Devereaux, G. B., 89

E
Eisenberg, P. G., 279

F
Ferris, E. W., 383
Ford, C. D., 42

G
Gianino, M. S., 279

H
Hadaway, L. C., 297
Handy, C. M., 164
Hinkle, J. L., 172
Howard, M. P., 279

J
Jordan, K., 388

K
Kyle, K. S., 287

L
Larkin, M., 206
Lee, S. C., 190
Lumsden, D. J., 59

M
Macklin, D. C., 249
Malloy, J. A., 185
Markel, S., 347
McLaughlin-Hagan, M., 119
Murphy, D., 355
Myers, J. S., 287

N
Nacker, J. G., 23

P
Paes, B. A., 122

R
Reynen, K., 347
Ritter, H. T. M., III, 156
Rutherford, C., 218

S
Scanlon, C., 318
Scharnweber, K. S., 226
Scott, W. L., 178
Smith, D. G., Jr., 164
Speer, E. W., 30

T
Tan, M. W., 308
Tofflemoyer, M., 239

V
Varella, L., 51
Viall, C. D., 294

W
Wachs, T., 100
Weinstein, S. M., 231
Winskunas, C. A., 115

Z
Zook-Enck, D., 375

Subject Index

A
Access devices
  antecubital vascular, overview of, 297
  implanted: implications for patient education, 294
Accreditation of Healthcare Organizations, Joint Commission on, 185
Accuracy monitoring, of I.V. fluids, 23
Addiction, the chemically dependent nurse: management issues, 190
AIDS, home care, 318
Antibiotics
  home therapy for brain abscesses, 172
  neonatal home antibiotic therapy, 383
Alpha$_1$-Antitrypsin, deficiency, principles and clinical management, 226

B
Brain abscesses, home antibiotic therapy for, 172

C
Cancer, pain management with subcutaneous infusion of narcotics, 119
Care plans, measuring outcome criteria in, 253
Catheter
  central venous
    occluded, in pediatric patients, urokinase administration, 100
    selection, catheters, devices, and nursing management, 361
    single- and multiple-lumen, issues, 30
  maintenance with new dressing technique, 279
  tunnelled, selection and nursing management, 361
elastomeric hydrogel, clinical evaluation during home infusion therapy, 89
peripheral, elastomeric hydrogel, clinical evaluation during home infusion therapy, 89
peripherally inserted central (PICC) for home management of parenteral therapies, 347
  hospital-based protocol development, 287

long-term, selection and nursing management, 361
selection, devices, and nursing management, 361
Tenckhoff, for intraperitoneal therapy, prevention and management of complications, 375

D

Documentation, of I.V. therapy, 115

E

Extravasation
antineoplastic vesicant, 111
management policies, review of, 111

H

Hemotherapy, initiating a home program using a primary nursing mode, 13
Home therapy
antibiotic, for brain abscesses, 172
elastomeric hydrogel peripheral catheters for, 89
narcotic infusion for pain management, 355
neonatal antibiotic therapy, 383
parenteral therapies, management of, 347
Home therapy service, accreditation through Joint Commission on Accreditation of Healthcare Organizations, 185

I

Implanted ports, daily access to, implications for patient education, 297
Interferon, clinical uses and nursing implications, 388
Intraperitoneal therapy, via Tenckhoff catheter: prevention and management of complications, 375
Intravenous Nurses Society, Annual Meeting
Executive Director's report, 206
pictorial, 222
President's address, 216
President's report, 218
Intravenous nursing
care plans, measuring outcome criteria, 253
math calculations, 231
standards for performance, 249

L

Legal risks in a changing practice environment, 59

M

Math calculations, for intravenous nursing, 231

N

Narcotic
continuous infusion: home pain management, 355
continuous subcutaneous infusion, 119
Needles, disposal, implications and control, 42
Newborns
intravenous antibiotic therapy, 383
intravenous infusion by superficial vein, 122
Nursing management, advanced in central venous access: selection, catheters, devices, 361
Nutrition, total parenteral, training patients to administer, 51

O

Occurrence screens, risk and quality control tool, 308

P

Pain management
cancer-related, and subcutaneous infusion of narcotics, 119
continuous infusion of narcotics, home setting, 355
Patient education
access to implanted venous ports, 294
total parenteral nutrition via subcutaneous ports, 51
Pentamidine, protocol for intravenous administration, 164
PICC. *See Catheter, peripherally inserted*
Pneumonia, *Pneumocystis carinii*, intravenous pentamidine administration, 164
Ports, implanted. *See also Catheters*
access to: implications for patient education, 294
implications and nursing management, 361
Pumps (infusion), evaluation and selecting, 156

Q

Quality assurance
evolution of standards, 239
nursing role and methods, 239
medical-device complication reporting, 178
occurrence screening, 308

S

"Sharps" (needles, razors, etc.), disposal: implications and control, 42

T

Tenckhoff catheter, for intraperitoneal therapy, prevention and management of complications, 375
TPN. *See Nutrition, total parenteral*

U

Urokinase, in pediatric patients with occluded central venous catheters, 100
